INTERIOR DESIGN FOR  
HOTELS AND  
RETAIL SPACES

**superPan**

THE  
DIFFERENCE  
IS IN THE  
DETAILS

## PERFECT FINISHES

Thanks to its composition, SuperPan makes for perfect finishes, even in the smallest details. Especially for small on-site adjustments even using a manual saw.

## STABLE AND DURABLE SURFACES

The quality of the finish and its maintenance over time is especially critical in retail furniture. SuperPan is suitable even for the most demanding coatings, such as high-gloss.

## SHELVES THAT CAN WITHSTAND WEIGHTS

SuperPan's outstanding physical and mechanical properties allow it to withstand loads with minimum sag.

## HIGHLY RESISTANT EDGES AND SURFACES

Here, where use is intensive and cleaning is more frequent, furniture made with SuperPan offers greater resistance to small everyday impacts.

# THE IDEAL BOARD FOR PROJECTS IN INTENSIVE USE ENVIRONMENTS

We present a high-performance and differentiating board: SuperPan. A state-of-the-art board that opens up new possibilities for interior decoration.

SuperPan is synonymous with the guarantee of durability.

# INTERIOR DESIGN FOR HOTELS AND RETAIL SPACES WITH A LONGER GUARANTEE OF DURABILITY FOR CUSTOMERS

SuperPan's potential stems from how it behaves in different industrial processes, always striving for an excellent relationship between its cost and the value it offers users.

## PRODUCTIVITY FOR CUTTING AND MACHINING

SuperPan's composition considerably reduces chipping in melamine coatings, making for high-quality edges, even with visible cuts, thus improving precision and perceived quality. In addition, it allows cutting more linear metres without sharpening the tool.

## GREAT SUITABILITY FOR FASTENERS

Drill holes have great stability, allowing for highly resistant assemblies using dowels, screws, eccentric fasteners or hinges. This resistance is transmitted to the different assemblies, such as legs, shelves and display stands intended for heavy items.

## ALLOWS FOR SMALL RADIUS CURVATURES

Curved shapes can be formed by grooving the back.

## SUITABLE FOR DEMANDING COATINGS

Both for lacquered furniture and film coatings (PET, Finishfoil, HPL, etc.), SuperPan provides long-lasting surface flatness and stability.

- Excellent vinyl adhesion
- Allows for direct printing
